**FOR IMMEDIATE RELEASE:**

**GTC BEGINS WORK ON ANOTHER DOUGLAS COUNTY SCHOOL DISTRICT PROJECT**  
*A new DCSD elementary will help relieve overcapacity strains in other elementary schools.*

Golden Triangle Construction (GTC) announces it was recently awarded a contract to build a new prototypical elementary school for the Douglas County School District. Elementary School #47 will provide capacity relief for other area schools and is being funded by a bond approved by Douglas County community members in 2006.

Designed by RB+B/Hutton Architecture Studio, the new elementary school will be approximately 73,000 square feet on a 12-acre site located in the Castle Oaks Division of Castle Rock, Colorado. As a prototypical school, the building's design is the same as several of the previously built elementary schools in the district, but with minor improvements. The project will also include nearly 100 parking spaces, playground areas, and baseball and soccer fields.

GTC has a long-standing relationship with Douglas County School District (DCSD) and has built three other DCSD schools, including Plum Creek Academy, a current project expected to be complete this summer. In 2007, GTC built Elementary School #46, renamed Roxborough Intermediate School, which was one of the newer prototypical schools designed and constructed with a focus on green building. Rich Cosgrove, DCSD's Director of Construction, said, "GTC has successfully completed many Douglas County School District projects for many years. We've always been pleased with their work and the client-focused service they provide. We look forward to working with them on this new elementary school, and we know it will be a success."

Construction on Elementary School #47 started mid-April and is expected to be complete by June of next year, in time for the start of the 2010-2011 school year.

Golden Triangle Construction (GTC) has been a commercial general contractor in the Colorado Front Range construction market since 1977. For more information, please call Dennis Richard at (303) 772-4051 or email [drichard@gtc1.net](mailto:drichard@gtc1.net).
